

# SHASHANK SHARMA

Frontend Developer

+91 9627278867 | shashanksharma962727@gmail.com | Portfolio | LinkedIn | GitHub

## SUMMARY

Frontend Developer with hands-on experience in building responsive web application using React.js, Redux, Tailwind. Strong understanding of modern JavaScript (ES6), Firebase and REST API integration. Passionate about creating clean UI and scalable frontend websites.

## SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6)
- **Frameworks & Libraries:** React.js, Redux, React Router, Tailwind CSS, Bootstrap
- **Tools:** Git, GitHub, Firebase, Firestore, Vite, VS Code
- **Programming Languages:** Java, Python

## EDUCATION

- **Bachelor of Computer Application (BCA)** 2024-2027  
(expected)  
Raja Balwant Singh College, Agra

## PROJECTS

- **Shopmate – Ecommerce Website** [Live](#) | [Code](#)  
A fully responsive and user-interactive multi-page eCommerce website with Admin Dashboard panel, Authentication system, Cart functionality and protected routes using React, redux, Tailwind and firebase.  
**Tech Stack:** React.js, Vite, JavaScript (ES6), Tailwind CSS, Redux, React Router, Context API, Firebase, Firestore Database, Firebase Authentication.  
**Features:**
  - Responsive design compatible with desktop, tablet, and mobile devices.
  - Implemented Firebase Authentication (Sign Up / Sign In) and protected routes for users and admin.
  - Built an admin dashboard to add, update, and delete products.
  - Implemented cart functionality, search, and product filtering.
  - Integrated Firestore database for store real-time product and user data.
  - Deployed the application using Firebase Hosting.
- **World Intelligence Platform** [Live](#) | [Code](#)  
Built a React web application to display global intelligence data with a clean, responsive interface. Implemented reusable components, API integration, and seamless navigation.  
**Tech Stack:** React.js, JavaScript (ES6), Tailwind CSS, API Integration (Axios), React router, Framer Motion, vercel.  
**Features:**
  - Users can search for any country and view detailed information.
  - Detailed country data displayed on click, including key metrics.
  - Users can save favorite countries for quick access.
  - Responsive and mobile-friendly UI for seamless experience across devices.
  - Clean layout with smooth animations and transitions.
- **Clima – Weather Dashboard** [Live](#) | [Code](#)  
Developed a responsive, interactive weather dashboard displaying real-time and forecast weather data. Integrated geolocation for current location weather updates and deployed on Vercel.  
**Tech Stack:** React.js, JavaScript (ES6), Tailwind CSS, API Integration (Axios), Recharts.js, vercel.  
**Features:**
  - City search functionality to view current weather in any location.
  - Real-time weather display including temperature, humidity, wind speed, and weather conditions.
  - Forecast data displayed using charts for better visualization.
  - Automatically fetches weather data using the user's current location (geolocation).
  - Responsive UI compatible with all devices and deployed on Vercel.

## CERTIFICATION

- ReactJS for Beginners – Simpli learn
- Gen AI – Google Cloud
